1- Remove the plate C from the canopy B

If the caps D have come off the canopy B, put them back on.

2- Remove the bracket A from the canopy B and fix it to the ceiling with suitable screws. In case of a plasterboard ceiling, check the capacity of the latter

3- Connect the electrical cables, using the special insulating terminal E.

4- Fix the canopy B to the bracket A with the appropriate screws.

5- Fix the plate C to the canopy B using the appropriate Allen screws and remove the caps D.

7- Connect the clips G from the canopy to the clips H of the cables of each individual pendant. Proceed from the center outwards.

Screw the tube I to the threaded rod L. Finally tighten the Allen screw M in the tube I in order to lock the electric cable.

8- Insert the bulbs into the socket-outlets embedded in the support N.

9- Screw the spheres into support N, proceeding from the center outwards

ASSEMBLY TOOLS:

- Screwdriver / Drill
- Screwdriver
- Allen keys

It is advisable to proceed with the assembly of the chandelier in two people.

LAMP HOLDER: G9

LIGHT SOURCE: halogen g9 max 20w
led g9
